Come see for yourself!

Manufacturing Production Planner

Full time position; reports to Team Lead Planning & Sourcing

Your Tasks

- Select production path for manufactured parts based on their drawings
- Work with in-house manufacturing and/or outside vendors to find the best manufacturing path
- Evaluate bids, purchase items and services at the most favorable price consistent with quality, quantity and specifications.
- Estimate expedited lead times for upcoming projects based on anticipated project scope and current production volume
- Coordinate with engineering regarding design adjustments to expedite component sourcing where possible
- Process order acknowledgements, maintain due dates, update purchase order pricing and communicate changes daily; expediting orders when necessary.
- Follow up daily with suppliers to gain delivery commitments on open purchase orders.
- Monitor and analyze supplier performance to ensure an on-time supply chain.
- Reconcile supplier invoicing; investigate and resolve issues.
- Perform other duties as assigned.

Your Profile

- Highschool diploma or GED required
- Proficient in Microsoft Office required
- 1+ year ERP experience required
- 1+ year production planning experience, preferably in a manufacturing environment
- Able to read and understand specs and part drawings required
- Familiar with manufacturing and CNC production required
- Must possess the ability to organize and prioritize tasks, work collaboratively in a cross-functional environment, and ensure timely completion of responsibilities
- Well organized, multitasker, detail-oriented and thorough
- Proficiency in MES/PLM systems (PSI Penta/Agile preferred)
- German language skills preferred
